

Your GPS

GOAL: You already know the mission that Jesus gave every church: **MAKE DISCIPLES!**

PASSION: There is no question that this is what you deeply desire for your church.

STRUGGLE: What is the missing ingredient? **HOW**

If you could spend two days learning **HOW** you can make reproducing disciples, would it be worth your time?

We will unpack the picture inside and you will walk away with a plan to make it happen in your church.

YOUR JOURNEY GUIDES:

Greg Ogden:
author of *Discipleship Essentials*, translated in 15 languages, pilot-tested over 30 years with over 300,000 in print.

Ralph Rittenhouse:
former pastor of Camarillo Community Church, congregation of disciples who keep on making disciples.

Turning Your Church into a **Disciple-Making Mission**

A Disciple-Making Intensive

SUCCESSFUL DISCIPLE-MAKING JOURNEY¹

Successful Journey

Begin with the end in mind.
Be inspired by the story of a church
that has been transformed into a
community of disciple-makers!

...but HOW do you get there? You need three things...

Vehicle: The micro group (3s and 4s)
provides the relational setting that readily
multiplies and serves as the environment
for the Holy Spirit's transformation.
What makes micro groups work?

Driver: The most important persons in
your church are the leaders of a micro
group. What is their job description?
How do you support them?

Map/GPS: You need a disciple-making
curriculum (Map/GPS) that serves as the
foundational content and transferable
tool that empowers a leader to make
reproducing disciples. What happens if
you don't have a curriculum?
